Personal statement

Looking for a skilled Full Stack Developer to build a stunning fully-responsive website? With over 7 years of experience I specialize in creating responsive high-performance websites with seamless user experiences using modern technologies like HTML CSS JavaScript Bootstrap jQuery TypeScript ReactJS VueJS AngularJS AJAX PHP MySQL MongoDB Django ExpressJS Flask NodeJS Flutter Python Kotlin.

A highly skilled and results-driven Web Developer in designing developing and maintaining dynamic user-friendly websites and applications. Specializing in the Front-end Back-end Mobile and Desktop Applications I have a proven track record of delivering end-to-end solutions that meet business requirements enhance user experiences and drive technical innovation. I Adapt at utilizing modern technologies and development frameworks I excel at collaborating with cross-functional teams to build seamless web experiences that are scalable efficient and secure.

Employment history

Web Development Project Manager

CommonwealthAssembly Web Solutions - Abuja
January 2020 - Present (5 years)

Lead full-stack development for a variety of client projects overseeing both front-end and back-end implementation ensuring that all technical requirements are met from wireframe to deployment.

Designed and developed responsive mobile-first websites using React and Angular for the front-end and Node.js for server-side operations ensuring robust performance across all devices.

Integrated third-party APIs such as payment gateways social media and shipping solutions into eCommerce and business applications.

Streamlined database management leveraging MySQL and MongoDB to optimize queries and improve data handling.

Implemented security best practices including data encryption secure authentication and authorization protocols.

Collaborated with UX/UI designers to enhance the user experience ensuring interfaces are intuitive and meet customer expectations.

Full Stack Web Developer

Pixel Hub Digital Agency - Lagos
September 2017 - December 2020 (3 years)

Developed and maintained high-performance web applications utilizing ReactJS Django Flask and PHP for both front-end and back-end functionality.

Built RESTful APIs to support the clients core business processes enabling seamless communication between the client-facing web application and backend systems.

Assisted in migrating legacy systems to modern technologies and frameworks improving system efficiency and reducing operating costs.

Managed cloud-based infrastructure on Git optimizing resource allocation for cost-efficiency and performance improvements.

Mentored junior developers providing training in front-end frameworks back-end development practices and debugging techniques.

Senior Web Developer

SpringValley Tech Innovations - Port Harcourt
August 2015 - September 2017 (2 years)

Assisted in the development and maintenance of internal and client-facing websites focusing on front-end technologies such as

HTML CSS and JavaScript

Worked closely with senior developers to design and implement back-end solutions using PHP and MySQL.

Participated in agile development sprints collaborating with cross-functional teams to meet project deadlines and deliver quality results.

Conducted quality assurance testing identifying and fixing bugs and ensuring code was optimized for fast load times and minimal latency.

Education

Bachelors Degree

Covenant University - Ogun

Major: Computer Science

October 2016 - July 2020

Skills

- Front End Web Development (7 years)
- Backend Web Development (6 years)
- Mobile and Desktop Application Development (2 years)
